

An Illustrated Treasury of Orchids
by Frank J. Anderson

The ROA Library has received a beautiful book of orchid species, *An Illustrated Treasury of Orchids*. This book by Frank J. Anderson contains fifty 12" x 15" illustrations of orchid species selected from the New York Botanical Garden Library. Opposite each illustration is a paragraph of its history and cultural requirements.

The two-and-a-half introduction gives an overview of orchids in general, their history, geographic distribution cultural variety and an admonition that these should be taken as generalities, not dogma.

This book was donated anonymously to the ROA.
